EMPLOYER

• aliasBit Consultancy • 01-2017 to 04-2018	aliasBit is Lahore, Pakistan based IT company, operating since 1999. I started my career as Software Engineer in 2017. I worked on different software/web development technologies including ASP.Net Core, ASP.Net MVC, AngularJs, MS SQL Server, jQuery, ajax toolkit etc. aliasBit is an off-shore company with its links in Australia and Sweden. My responsibilities were to develop and maintain the software/web apps of Swedish clients. Mainly of informia.se
• Sioux Falls Software • 05-2016 to Present	Sioux falls software is a US base software house. I am working here as a freelancer. I develop a lot of projects for Sioux falls software including Life Scape Art, Sioux Falls Roofers, Prairie Wind Decoys, Choppers for sale and many more. Most of the websites were built on Umbraco CMS and NOP commerce.
• Node-Square • 04-2016 to 12-2016	Node-Square is a Lahore, Pakistan based software house. I attended Node-Square from May-2016 to August-2016 for my internship and then after that I worked as Junior ASP.Net developer till January 2017.
